

# How to be SAFE when you use the internet.

Using the internet is something that we all do.

It might be that you don't use it very much or you might be one of those people who just love using it!

It doesn't matter how much you use the internet, when you use it you **need** to know how to keep yourself safe.

**BE SMART!**

SMART

Today in ICT we're starting to learn about **E-Safety**.  
E-safety is all about knowing how to keep yourself safe when you are online on your computer.

Today we're going to learn about how to be  
**SMART**.

I'm looking for you to understand that being safe when you are using the internet is **VERY IMPORTANT**.

We are learning to know how to keep ourselves safe on the internet so that we can always enjoy it and not worry.

We're going to learn from Dongle about how to be safe when you are surfing the net and about how to be

**SMART!**

T

**S** **SAFE** - ALWAYS KEEP  
YOUR NAME, ADDRESS,  
MOBILE PHONE NUMBER  
AND PASSWORD  
PRIVATE.

▶ **REPLAY**

✕ **CLOSE**

# S = SAFE

Keep yourself safe – **DON'T** give out any personal information.

Keep your full name, address, mobile number, email address, school name and friends' full names secret. Otherwise people can use this information to contact you.

Your passwords and nicknames should be secret.

If you have to give an online screen name or nickname, never use your real name, and try not to use things that are easy to guess like your parents name or a pet's name.

**M** MEETING UP WITH A  
WEB PAL CAN BE  
DANGEROUS. IF YOU MUST  
GO, MAKE SURE YOU TAKE  
AN ADULT WITH YOU.

**A**

**R**

**S**

**T**

**▶ REPLAY**

**✕ CLOSE**

**M** = MEET **X**TING

**NEVER** meet up with an online friend.

**Never arrange** to meet an online friend, no matter how well you think you know the other person or however curious you may be.

If you know that somebody is thinking about doing this then tell an adult because it could be **VERY DANGEROUS** for them.

**SMART**

# Dongle's SMART tips for safe surfing

**A** ACCEPTING EMAILS OR  
OPENING FILES FROM PEOPLE  
YOU DON'T KNOW CAN GET  
YOU INTO TROUBLE - THEY MAY  
CONTAIN VIRUSES OR  
NASTY MESSAGES.

**S**

**R**

**T**

▶ **REPLAY**

✕ **CLOSE**

# A = ACCEPTING

**ACCEPTING** emails can be dangerous, they can contain viruses that will harm your computer or really nasty messages that could upset you.

**Don't open emails from people you don't know.**

If they have your email address some websites will send you lots of junk emails trying to sell you things, or messages that make you feel uncomfortable. This is called spamming.

The best thing to do is to just delete all messages from people and companies that you don't know.

**R** RELIABLE? SOMEONE  
ONLINE MAY NOT BE  
WHO THEY  
SAY THEY ARE.

S

T

▶ REPLAY

✕ CLOSE

# R = RELIABLE?

**Beware ! People on the internet might not be who they say they are.**

Someone online maybe lying about who they are, and information you find on the Internet may not be reliable.

Chats and message boards are fun, but they can also be dangerous because you don't know who you're talking to.

Remember **stranger danger** - you should use the same rules when you're online.

SMART

**T** TELL YOUR PARENT OR  
CARER IF SOMEONE OR  
SOMETHING MAKES  
YOU FEEL UNCOMFORTABLE  
OR WORRIED.

**T = TELL**

**TELL** – Tell an adult if you are worried about anything you have found or seen or heard on the internet.

If you are chatting to someone on something like MSN then the best thing to do if someone upsets you is to log off and tell an adult.

**SMART**

## Role Play – What should **YOU** do?

Someone you have just 'met' online and have been chatting to about football on MSN asks you where you will be playing your next game.

They say that they'd like to come and watch you play and could they have your phone number so they could ring and arrange to meet you when you go to the game.

What should you tell them if you are a **SMART** surfer?

**SMART**

## Role Play – What should **YOU** do?

You're using your dad's computer at home and having a great time emailing your best friend.... 😊

You look at your inbox and see 10 emails and so you get really excited that your friend has sent you so many!

When you open your inbox you see that not all of the emails are from your friend but one of them looks exciting because the title of the email says that you might have won £2000!

## Role Play – What should **YOU** do?

You're using your dad's computer at home and having a great time emailing your best friend.... 😊

You look at your inbox and see 10 emails and so you get really excited that your friend has sent you so many!

Another of these 10 emails has a funny paperclip sign attached to it and you wonder what that means.

What does a **SMART** surfer do?

**SMART**

## Role Play – What should **YOU** do?

You have been talking to Sally, your online friend for a few weeks now. She sounds really cool. She lives in Dubai. She has her own room and 3 dogs.

Her family also has a swimming pool and 6 horses.

Do you think that she is telling you the truth?

What would a **SMART** surfer think?

**SMART**

## Role Play – What should **YOU** do?

You're searching google for a cool picture to put into your powerpoint when you see something that isn't nice and it makes you feel really uncomfortable.
