- 1) Information sources: The school and Lancashire information is LA calculated and may differ slightly from published results. National information is from the DfE SFR 'National curriculum assessments at key stage 2' where available, if not from NCER.
- 2) 2023/24 results do not reflect changes made via the Primary School Performance Tables Checking Exercise. School and Lancashire is dated 19/09/24.
- 3) Blank boxes mean the information was not available or relevant at the time of publication.
- 4) For reading and mathematics teacher assessments, the HNM code (Has not met the expected standard) is used instead of the codes for the pre-key stage standards if the pupil has a test result. For science, the HNM code is used where pupils have not met the criteria for working at the expected standard (there are no pre-key stage standard codes for science).
- 5) The GDS teacher assessment (working at a greater depth within the expected standard) is only used for writing.
- 6) BLW figures from 2021/22 onwards include children working on the Engagement Model.
- 7) The full teacher assessment codes and their validity for the four KS2 subjects are shown below:

		R	W	M	S
GDS	Working at a greater depth within the expected standard	n/a		n/a	n/a
EXS	Working at the expected standard	n/a		n/a	
WTS	Working towards the expected standard	n/a		n/a	n/a
HNM	Has not met the expected standard	n/a	n/a	n/a	
PK All	Pre-key stage standards 1 - 6				n/a
BLW	Below the standard of the pre-key stage standards				n/a
